

Volume controller

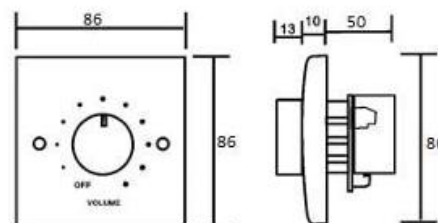

TSG-VC6/VC30/VC60/VC120

Speaker Volume Control

Compatible with speakers which have 100V LMT | White ABS housing

Volume controller is used to adjust the 100v loudspeaker output using 100V attenuator. It's available with a power rating of 6W/30W/60W/120W so suitable for connection to a speaker or group of speakers. High wattage rotary switch with 5 selectable positions, maximum 5 attenuated position in 3dB steps. It enables the user to conveniently adjust the volume of the speaker or group of speakers. High level white UV-protected ABS material to integrate with the white wall and architecture design. Surface wall mount or in-wall mounting box shall be purchased separately
