

Keypad Extension

CRM-12K

12 Zone Extension Keypad

Upto 11keypad | 12 Zones keys | Fully real time monitored

The CRM-12K Zone Expansion Keypad is an extension to the CRM-RPM12 Voice Alarm system remote paging microphone that adds additional zone-selection keys. It has the same stable metal base as the call station. In addition to tabletop use, the special design allows it to be neatly flush mounted in desktops

Key Features

- **12 Zone selections**
- **Expand the capacity of remote microphone**
- **Up to 11 keypads can be added to an CRM-500RPM Remote Paging Microphone**
- **Active zone indication by LED's**
- **Up to 120 zones by cascaded the zone keypad CRM-12K**
- **Keypad internal line will be monitored**
